

Evergreen Lake Company Fee Schedule

as of 7/25/2025

Water Service Charges (per Quarter)

House/Cabin	\$243
RV/Camping Lot	\$156

Water Tap Fee \$9,500

Customer Premise Service Fee: Customer premise is everything from the meter pit to your frost-free hydrant or house.

Summer	\$50
Winter	\$100
Customer Premise Leak Detection	\$100

Replacement of Vacuum Break on Frost-Free Hydrant as required by CDPHE for Backflow Prevention. \$35

Violation of Backflow Prevention inspections and policy \$200

Account Reinstatement Fee \$1,750 plus monthly fees for months inactive

Tap Installation Fees:

Parts for tap on water main, meter, meter pit, conduit, and purecore to the meter pit Approx \$1600 - \$1800 The cost of necessary materials from the main to the meter pit depends on current market prices and is billed by the water company.

Excavation from water main to the meter pit and labor for the tapping \$2880 or \$3580 The price for excavation and tapping the main depends on whether the water main is on the same side of the road as the meter pit or across the road. If a different excavation contractor, other than one approved and used by Evergreen Lake Co, is used for service line installation, the cost will be billed by the water company. Conversely, if the contractor performing the work is handling your service line, they will bill you directly.

Service line Installtion Variable The cost of installing the service line is determined by the excavating contractor chosen by the customer and will be billed directly by the contractor.

Site survey of a water connection required prior to installation of meter pit \$50

Returned Check Fee \$50
